Compliments of
St. Mary Medical Center, High Desert Primary Care Medical Group and Premier Healthcare.
Known to the High Desert as “The City with Unlimited Possibilities”, Adelanto was founded in 1915 by E.H. Richardson, the inventor of what became the Hotpoint Electric Iron. He sold his patent, purchased land, and planned to develop one of the first master planned communities in Southern California. While Richardson never fully realized his dream, it was his planning that laid the foundation for what is currently the City of Adelanto. It was until 1970 that the City of Adelanto was incorporated and became the County of San Bernardino’s smallest city.

The City of Adelanto continues to offer opportunity in all areas of development, with potential of being the major industrial employer in the area. Adelanto’s retail, industrial, and commercial market will begin to capitalize on the tremendous opportunities in the Victor Valley. Known as the “City of Unlimited Possibilities”, Adelanto’s philosophy looks to be well underway.
